What Are Helping Verbs?

Helping verbs are words that combine with main verbs to form verb phrases, which add meaning to sentences. They are integral in expressing various tenses, such as past, present, and future, as well as questions, negatives, and emphasis. Without helping verbs, sentences can lack clarity or the ability to express complex ideas.

A helping verb supports a main verb by extending the meaning of the action or state described. For example, in the sentence "She is running," the helping verb "is" works with the main verb "running" to form the present continuous tense, indicating an ongoing action.

Key functions of helping verbs include:
