Detailed Breakdown of Handout 28 Answers

The answers to Handout 28 serve as a guide for students to navigate complex topics. Here, we analyze each major section typically covered in the handout:

1. Causes and Effects of the Great Depression

Causes:

- Stock Market Speculation: The rampant buying on margin led to inflated stock prices disconnected from real economic values.
- Bank Failures: Lack of federal regulation caused many banks to collapse, eroding savings and confidence.
- Overproduction: Industries and agriculture produced more than consumers could buy, leading to falling prices.
- Decline in Consumer Spending: As wealth diminished, spending decreased, exacerbating economic downturn.

Effects:

- Unemployment soared to approximately 25%, with millions losing their jobs.
- Widespread poverty and homelessness, including the infamous Hoovervilles.
- Global economic repercussions, as the U.S. economy was interconnected with world markets.

Analysis:

The answers clarify that the Depression was not caused by a single factor but a confluence of speculative behavior, structural weaknesses, and policy failures. Recognizing these causes helps students understand the importance of regulation and economic safeguards.

2. The New Deal Policies and Their Impact

Key Programs and Agencies:

- Civilian Conservation Corps (CCC): Provided jobs for young men in conservation projects.
- Works Progress Administration (WPA): Employed millions in public works projects like roads, bridges, and buildings.
- Agricultural Adjustment Act (AAA): Aimed to raise crop prices by reducing surpluses.
- National Recovery Administration (NRA): Promoted fair competition and set industrial codes.

Goals and Outcomes:

- Relief for the unemployed and impoverished.
- Recovery of the economy through public works and regulatory reforms.
- Reform to prevent future depressions, such as banking reforms and social security.

Critical Evaluation:

The answers highlight that while the New Deal expanded federal authority and provided immediate relief, some programs faced criticism for their effectiveness, constitutionality, or unintended consequences. For example, the AAA?s reduction of crop production led to debates about government intervention in agriculture.

3. Political Changes and Social Movements

Shift in Political Ideologies:

- The Democratic Party, under Roosevelt, became the champion of progressive reform.
- The Republican Party experienced internal divisions, with some supporting New Deal policies and others resisting federal expansion.

Social Movements:

- The rise of labor unions gained momentum, advocating for workers? rights.
- The African American community faced the dual challenges of discrimination and economic hardship but also saw increased political engagement (e.g., the ?Black Cabinet?).
- Women?s roles expanded, with increased participation in the workforce and advocacy for social reforms.

Analysis:

The answers emphasize that these shifts laid the groundwork for future civil rights and social justice movements, highlighting the interconnectedness of economic policies and social change.

Critical Themes and Analytical Insights

The Role of Government: From Laissez-Faire to Interventionist

One of the key lessons from Lesson 28 is understanding the evolution of the federal government?s role. The shift from minimal intervention during the Gilded Age to active involvement during the New Deal marked a significant ideological transformation.

- Pre-Depression: Limited government, belief in free markets.
- During the Depression: Recognized the need for intervention to stabilize the economy.
- Post-Depression: Foundations laid for the modern welfare state, with increased regulation and social safety nets.
